**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 7,8,11,12 and 17 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed does not provide support for the alignment guide 162 engaging the bottom surface of the leg, but the bracket 54, as set forth in claims 7 and 17, or the retainer member trapping the second aligner between the rear leg and the retainer member, as set forth in claim 11.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,6-9,11-15 and 19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Gibson et al '238. Gibson shows a handle at 218, alignment bracket at 216, retainer member at 258, pivot support mount 214 and alignment guide at 236. Gibson also shows a first and third portions at 236 adjacent portion 228, and a second alignment portion, the cutout portion of 216 that receives portion

228, as set forth in claims 8 and 13, also his retainer/second aligner engages the front leg through the attached support mount, similar to applicant's claimed engagement of the legs through his attached bracket 54, as set forth in claims 7 and 17.

Claims 6,7,13,15 and 16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Giezendanner, Giezendanner shows means for aligning, second alignment means 7 and first and third alignment means (each leg of bracket 5), and a cotter pin lock.

Claims 2-5 are allowed.
